## Do you care for someone on the Autistic Spectrum or who has Social Communication Difficulties?

Then you are warmly invited to join our Carers' Support Group.

The purpose of our group is to give parents and carers over 18 years of age and living within the counties of Surrey or Sussex, the opportunity to share information, advice and support in a relaxed, informal environment.

At some meetings we also have professional speakers.

Most months we have three opportunities for members to meet. Please see our website for locations, dates, times of our meetings and details of speakers.
